

Dear FCC,
I benefit from listening to XM Satellite Radio and its traffic and weather channels.

Satellite radio provides variety and quality that are not available elsewhere. This is a subscription based service, and it should not be up to the National Association of Broadcasters to dictate what we are permitted to hear.

Please reject the NAB's petition 04-160 and allow XM's ability to provide the kind of programming that paying customers demand and deserve.

Sincerely,

Mitchell Wolrich
